

Restylane®

Why Restylane®?

- It's a virtually pain free treatment.
- More than 10 million treatments have been performed since 1996.
- Clinical evidence proves Restylane to be safe, effective and long lasting.
- Restylane treatment provides an easy way to stay in control of your looks.
- A quick procedure with minimal associated downtime.
- The results of a single treatment can be seen instantly.

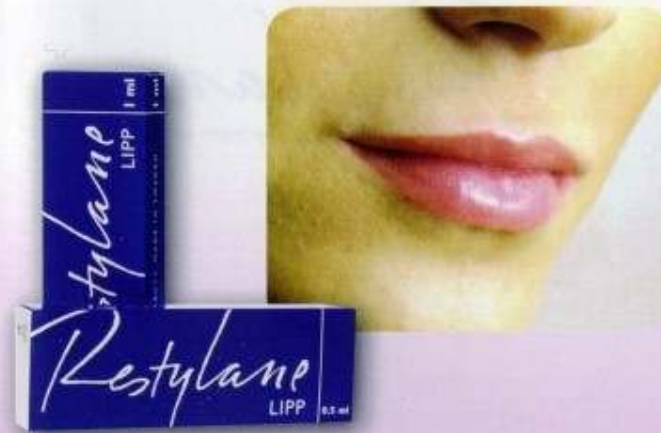

How long will it last?

- Restylane® Products are long lasting but not permanent.
- Many choose to have a follow up treatment 6 to 12 months after the initial treatment of wrinkles.

Restylane Lipp™

Look good and feel great with lips you'll absolutely love

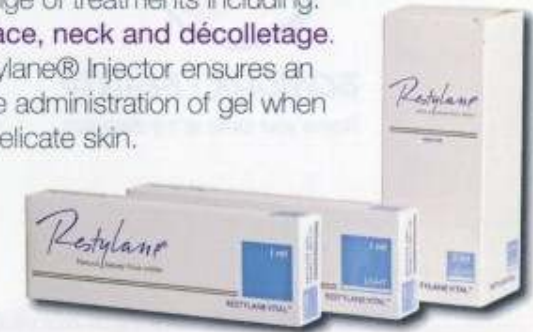

“ Whether you're concerned by thin looking lips, or you would just like to add a touch of fullness to create shapely, sensual lips, or even a pretty cupid's bow, then Restylane Lipp™ is the lip treatment you simply cannot do without ”

Restylane Vital™

- Restylane Vital™ is designed to revitalise different skin types.
- Broad range of treatments including: **hands, face, neck and décolletage.**
- The Restylane® Injector ensures an easy, safe administration of gel when treating delicate skin.

Restylane Vital™ is a safe and natural treatment for revitalisation of the skin. Restylane vital restores the hydrobalance of the skin and improves skin elasticity and tone to create a fresh and natural look.
